Description of Canopy Tour:

Raft One/Ocoee Ziplines provides adventure recreation and environmental education. The Canopy Tour includes Zip Lines, Sky Bridges, Obstacles and all other related Canopy Tour activities. Zip Lines are high cable traverses using safety harnesses and associated hardware. Participants zip through the forest canopy and are challenged with the difficulties of stepping off a high platform, confronting a fear of heights, and accepting these risks and other new challenges. Sky Bridges are walkways high in the forest canopy consisting of planking supported by steel cables and rope. Obstacles may include an incline and swinging bridge, moving platform or rappel. Participants wear safety harnesses clipped into overhead steel cables with attached safety lanyards. Guides trained to lead participants toward their desired recreational and educational outcomes will lead the tour through the forest canopy. All equipment will be fitted and checked by the staff; the guides will monitor progress throughout the tour and guides will supervise all equipment transfers. While under the care of your guides, it is your responsibility to follow instructions and monitor the continued fit and readiness of your equipment. Participants must be reasonably fit and able to control the speed of their travel along the zip lines by grasping the cable above their heads with leather gloves. Participants also may be required upon occasion to pull themselves along a stretch of cable if they lose momentum before reaching any given landing platform (guides may assist with this process). The tour includes hikes on uneven terrain. Participants must be physically able to complete these tasks.

Medical Concerns: The Canopy Tour is designed for participants of average mobility and strength who are in reasonably good health. Obesity, high blood pressure, cardiac and coronary artery disease, pulmonary problems, pregnancy, arthritis, tendonitis or other joint and muscular-skeletal problems may impair the safety and well-being of participants on the course, as may other medical, physical, psychological and psychiatric problems. All such conditions may increase the inherent risks of the experience and cause the Participant to be a danger to themselves or others. Participants with underlying medical problems that put them at greater risk of injury or illness during a Canopy Tour must carefully consider those risks before choosing to participate and they must fully inform tour staff in writing prior to the beginning of the tour. Raft One/Ocoee Ziplines reserves the right to exclude any applicant from participation for medical, safety or other reasons.

Inherent and Other Risks: Serious injuries are uncommon in Canopy Tours, but the risk of injury or death certainly exists by reason of falls, contact with other participants, and fixed objects moving about or being transported on the grounds on which the Canopy Tour is initiated and conducted. A number of risks are inherent to the Canopy Tour. These are risks that cannot be eliminated without changing the essential nature of the experience. The emotional risks range from unwelcome or inadvertent touching, simple hurt feelings to panic and psychological trauma (such as fear of heights.) The physical risks of participating range from small scrapes and bruises to bites and stings, broken bones, sprains, neurological damage and, in extraordinary cases, even death. The property on which the tour is conducted includes hilly, rocky and wooded terrain, cliffs, ravines, creek beds, potential harmful plants and animals, which may bite or sting. Injuries may be a natural consequence of the Canopy Tour undertaken as a result of the environmental hazards (including terrain and weather), a result of errors in judgment or failure to exercise reasonable care by guides, staff or participants, or otherwise, and may occur in spite of the reasonable efforts of guides and staff to prevent them. In all cases, those inherent risks, as well as other risks of injury or death to persons or damage to property, which are not inherent and whether or not described above, must be accepted by those who choose to participate.
